

Properties

Use Properties editor to edit the appearance and content of the views chosen for a workspace.

User account must have necessary permissions to view the Properties editor.

To open a Properties,

1. Click **Properties**.

The **Properties** editor opens with a list of the views on the left, grouped by type. On the right, the general workspace properties appear.

2. Select one of the views in the **Properties** tree.

All types of views have a **Style** tab, with different options for the type of view. The table, charts, and topology views have **Query** and **Filters** tabs, table and topology have a **Thresholds** tab, and terminal emulators have a **Configuration** tab. Whenever you want to change the data elements that display for a chart or table or change the styling of a view, go to the Properties editor.

3. Click **Cancel** to close the Properties editor.
